

Lawn Mowers
MODEL – SL - 1480, MAKE – SLBT, ORIGIN – INDIA

SLBT

The material used for making this lawn mower is high grade cast iron and has a heavy-duty frame which makes it more efficient when compared to a plastic body. It has 5 blades of high quality carbon steel which run on dual ball bearings for smooth moving. The wheels are of 8-inch diameter cast iron wheels with durable rubber tyres for easy and smooth working. This product is mostly used by owners who have small gardens. The cutting height can be adjusted by the user as per their need from 1/4 to 3 inches.
