

Laser Range Finder Make SLBT Model SL-1528 Origin India

SLBT

Technical Specifications

This Laser Distance Meter adopts laser technology to measure distance, area, and accurately, quickly and conveniently.

It has a wide measuring range 80m(250ft) and high accuracy of 1.5Mm.

In addition, this meter can make use of Pythagorean theorem to measure distances or lengths indirectly when direct measurement is not feasible.

This laser distance meter also has various functions including continuous measurement, addition/subtraction function, and Max/Min measurements.
