

## CNC Laser Tube Cutting Machine Make SLBT Model SL-1564 Origin India

### Technical Specifications

Open Type Fiber Laser Cutting Machine all in one IN-60M

Applications primarily suited for cutting stainless, carbon, aluminum, titanium, and most non-ferrous metals

Fiber laser power source options from 300W to 3KW

Fiber offers reduced maintenance requirements and operating costs compared to CO2

Position accuracy  $\pm 0.04\text{mm}$

Drive system X-axis ball screw drive, Y-axis square rail with rack and pinion gear

Working voltage: 380V, 50Hz /60Hz.
