

**Emergency lighting and accessories (Portable Emergency Lighting System Tower type with Battery Bank)
Make SLBT Model SL1615 Origin India**

Specification

This light tower is a fully portable and rechargeable unit and produces a wide flood of light ideal for use on construction sites and emergency scenes. This light tower offers a long list of features including versatile power and recharging options and provides an extremely rugged lighting solution that is ideal for use in commercial and industrial applications as well as emergency services and law enforcement environments.

The LED light tower is a self contained and portable light tower package that offers high power and extreme portability in a compact and durable design. This unit produces 1368 lumens that covers over 40 square feet and can run for up to 14 hours at full power on a single full charge of its on-board batteries. This LED light tower includes two 9-watt LED lights mounted to a telescoping aluminum mast that can be adjusted from 3 to 8 feet in total height. The entire package weighs 48 pounds and measures 22 inches tall by 9 inches in length by 14 inches wide, making it very easy to stow and deploy.
